

REMARKS

Examiner T. Pham is thanked for the thorough examination and search of the subject Patent Application. Claims 1-4 have been amended, Claims 5-16 have been canceled, and new Claims 17-23 have been added.

The making final of the restriction requirement is noted. Non-elected claims 5-16 are hereby canceled. A divisional application to the non-elected claims will be filed once the elected claims are found allowable.

The Examiner is thanked for finding allowable material in Claim 2. Claim 1 has been rewritten to clarify the claim and to include some of Claim 2.

All Claims are believed to be in condition for Allowance, and that is so requested.

Reconsideration of the rejection under 35 U.S.C. 112 of Claims 1-4 is requested in view of amended Claims 1-4. The claims have been amended to claim active and passive surfaces rather than first and second surfaces. It is believed that the claims can be more clearly understood with this amendment. The lack of antecedent basis for layer of passivation and scribe line have been corrected.

Claims 17-23 provide further details about Applicants' invention as disclosed in the Specification.

Reconsideration of the rejection under 35 U.S.C. 102 of Claim 1 as being unpatentable over Chen et al is requested in view of Amended Claim 1 and in accordance with the following remarks.

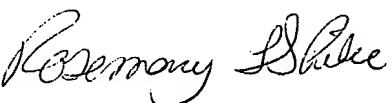

Claim 1 has been amended to include the planar inductors of Claim 2. It is believed that the clarification of Claim 1 and the inclusion of the planar inductor formation renders the claims patentable over Chen et al. Chen et al does not teach or suggest the fabrication of planar inductors.

Reconsideration of the rejection under 35 U.S.C. 102 of Claim 1 as being unpatentable over Chen et al is requested in view of Amended Claim 1 and in accordance with the remarks above.

Allowance of all Claims is requested.

It is requested that should Examiner Pham not find that the Claims are now Allowable that the Examiner call the undersigned at 765 4530866 to overcome any problems preventing allowance.

Respectfully submitted,

Rosemary L. S. Pike
